

Singer/Composer/Producer

“She has composed her musical arrangements as a painting, each song using structures and lines, textures and power, the result is moving. Her solo’s throughout the compositions take us on a journey as if we were in the middle of an impressionist painting.

When she takes the stage her presence fills the room with elegance. Her songs evoke beautifully sentiments of the human experience, hesitation, power and shades of emotions.”

NUCI NEBIERIDZE

Biography

Based in New York and Tbilisi, originally from Georgia, Nuci Nebieridze is a singer, composer, and producer who has performed numerous shows with her projects in recent years throughout New York, Europe, and Tbilisi, at venues such as the Birdland Jazz Club, Birdland Theatre, BMCC Tribeca Performing Arts Center, Club Bonafide, the Consulate of Georgia in New York, Gamle Logen in Oslo, and Tbilisi Conservatoire Hall, among others.

Her debut album, *Dreamension*, recorded and released in New York with her sextet, featured original jazz compositions and arrangements, blending improvisation and orchestral movements enriched by Eastern European harmonies. As she comes from fine art, the vision of this project was to produce stories as if the journey were in an impressionist painting, the manifestation of struggle culminating in rich sounds as the reflection of her experiences through contemporary jazz music.

After more than a decade of composing and performing as a jazz singer, Nuci expanded into production and music technology. Immersed in the rich harmonious complexities of vocal polyphony and the folkloric essence inherent to her culture, she created a fusion of vocal artistry and electronic music, culminating in the release of the EP *REBORN* and several singles, all entirely produced by herself.

Exploring artistic languages such as impressionism and surrealism within modern music production, she creates immersive sonic landscapes that blur the line between fine art and sound. Experimenting with polyphonic motions and expressive sound design, she creates a sonically animated atmosphere, where the extraordinary storytelling culminates in a cinematic experience - capturing the spirit of modern life, with its energy, speed, and noise.

While performing her solo electronic project throughout Europe, utilizing her own vocals in recent years, Nuci's eagerness to collaborate with a choir led her to initiate her most extensive project, partnering with the Gori Women's Choir in Tbilisi.

The project *Sonic Cultures* represents original choral compositions by Nuci Nebieridze, creating a synthesis of Georgian folk, American jazz, and contemporary polyphony blended with experimental sound design. Its aim is to explore the authenticity of Caucasian and American cultures and discover the connection between cultural heritage and modern music production.

This project attempts to explore the deepest cultural roots from a different perspective, to rethink cultural heritage and represent it in an innovative way. Supported by Tbilisi City Hall and the U.S. Embassy in Georgia, they have recorded an album and a single, and have thus far performed one live show at the Tbilisi State Conservatoire Hall, featuring the Gori Women's Choir along with American and Georgian musicians in jazz and electronics.

Nuci grew up in a family of artists, deeply influenced by her parents' fine art and their use of vibrant colors. She was constantly surrounded by the aroma of oil paint and walls adorned with canvases. She completed an eight-year classical piano program, earned a bachelor's degree in film/painting from the Academy of Arts, and graduated from Tbilisi State Conservatoire with a major in jazz/vocal. Additionally, she holds a bachelor's degree from the New School for Jazz and Contemporary Music in New York. She is currently pursuing a master's degree at BerkleeNYC, solidifying her unique signature in modern music.

Nuci Nebieridze - New Single “Simply Silent”

28 Dec/2024

Song link - [Simply Silent](#)

„რამდენიმე წლის წინ ოშოს (ინდოელი ფილოსოფოსის) საუბრებს ვუსმენდი. გარდა იმისა, რომ ვიზიარებდი მის აზრებს, იმდენად მელოდიურად მომეჩვენა მისი ხმა და ინტონაცია, „დავსემპლე“; ამოვჭერი ხმა ინტერვიუებიდან და დავწერე მუსიკა.

თავიდან ვფიქრობდი, რომ რეჩიტატივის სახით გავაჟღერებდი ოშოს ხმას, მაგრამ მისმა მელოდიურმა ფრაზებმა თვითონ მიკარნახა ტონალობა და ჰარმონია. ტექსტიც ლოგიკურად შეერწყა და გაირითმა სიმღერის ფორმასთან (verse, chorus, bridge). გამოვიდა პოპ-ტრეკი, სადაც მე და ოშო ვმღერით ერთად.

მთლიანად ფროდაქშენი, მიქსინგი და ყველა ხმა ჩემი ნამუშევარია. ვეცადე, ის ჯადოსნური სამყარო შემექმნა, რომელსაც ოშო აღწერს საუბრებში და რაც ჩემს თავშიც მაპოვნიდა. ოშო საუბრობს ცნობიერების ამაღლებაზე, ეგოს დაძლევაზე და თავისუფლების სიყვარულზე, სადაც არ არის საწყისი და ბოლო. მინდოდა, მარტივად მოსასმენი პოპ-ტრეკი გამოსულიყო, რომ ბევრს გაეზიარებინა ეს ფილოსოფია.

SOUL

An alternative version of a rock ballad with beautiful lyrics about lost love and the relaxed sea was a home recording at first, but in Summer 2019th it was recorded again in a professional studio. The song was unreleased 4 years because of the copyright issue, and now it is finally released.

Even though, the lyrics are in the Georgian language, minor harmonies and the sound of waves draw the blue nature of the song. The lyrics “You look like a relaxed sea, and still, the boat is sinking” express the lost love, and the sea of emotions, where the story is sinking.

The vision was to describe the whole dramatic picture within the details of the production and tell a story with colors and dynamic motions of voices.

In the beginning, the rhythm voices are interpreting little waves, blended with percussion groove and over the chorus in the middle of the song, the mass choir harmonies with the crossing motion build the dynamics, as the relaxed sea gets emotional drawing huge waves. Then suddenly it drops down and the second part starts with a double bass solo, the new reharmonized extension of the song, where the repetitive voices “The boat is sinking” are describing the enigmatic boat of love, sinking down slowly and dramatically.

At the end, the percussions like underwater stones, blended with the improvised echo voice and breath sound, fade out as if we slowly go beneath.
