

The background of the image is a vibrant blue watercolor wash. It features soft, blended edges and varying shades of blue, from a pale, almost white hue on the left to a deep, rich blue on the right. The texture is organic and painterly, with some darker, more saturated areas that suggest depth and movement.

# Workshops & Community Engagement

As Workshop Coordinator and Shop Manager at Maraya Art Centre and 1971 Design Space, I developed and delivered creative programs that encouraged community participation and cultural engagement. These included workshops and guided tours for children, school groups, and adults. I planned and conducted interactive sessions, supported artists through exhibitions and events, and designed workshops aligned with current shows to introduce audiences to artists' techniques and concepts, enriching cultural understanding in Sharjah and the wider UAE.
